

For Immediate Release

NOVAGARD SOLUTIONS CONTINUES ITS GROWTH OBJECTIVES TO REACH THEIR GLOBAL CUSTOMERS WITH ITS ANNOUNCED PARTNERSHIP WITH GENTEC OF BELGIUM.

CLEVELAND, OH, October 7th, 2011 – Novagard Solutions™, Inc., a leading supplier of specialty chemical products providing engineered solutions to the automotive, building construction, electrical, medical, general industrial and product assembly industries, and Gentec Benelux, a specialty materials and equipment supplier solving problems relating to precision assembly, adhesives, encapsulants, coatings, UV curing and UV light measurement for a wide range of industries, have announced a distributor agreement which allows Gentec Benelux to source Novagard Solutions' products to Gentec's customers located in Belgium, Netherlands and Luxemburg (Benelux). This exclusive agreement for supply of all of Novagard Solutions specialty products to this region of Europe includes Novagard's engineered silicone sealants and adhesives, silicone greases and compounds, UV silicone products, and NOVAFLEX® building materials sealants serving window & door, trim, gutter, siding and metal roof applications.

"This strategic partnership with a specialized distributor such as Gentec with their highly skilled technical sales force is critical to our growth objectives to serve customers in the Benelux region with our globally recognized engineered materials" said Michael S. Sylvester – Founder and CEO. "The motto, Engineered Products...Innovative Thinking, further expresses our goal of providing not only products, but solutions to our valued customers. We are registered to ISO 9001:2000 and ISO/TS 16949:2002."

With over 20 years of experience, Gentec is supplying quality equipment and materials to an ever growing number of industrial clients in Belgium, The Netherlands and Luxembourg seeking precision assembly equipment or specialty materials such as adhesives, encapsulants, coatings, and UV cure products for a wide range of industries and applications.

"As a global supplier of adhesives, sealants, coatings, lubricants and PVC foam, we are excited to have Novagard Solutions as a strategic supplier of these engineered materials which will allow us to continuously expand the solutions we bring to a highly specialized marketplace here in the Benelux region" said Stéphane Reul, General Manager of Gentec Benelux. "We are excited to be partnered with a supplier who brings us new technologies from the United States to serve our existing and new customers."

About Gentec Benelux

Gentec has recently moved to new facilities south of Brussels located at Rue de L'Industrie, 12

B-1400 Nivelles, Belgium. With more than 300 square meters of warehousing, Gentec's new facility provides a centrally located logistics platform from which Novagard products can be shipped throughout Europe without undue delay.

For more information about the availability of these new products, please contact Mr. Stéphane Reul by telephone at +32 2 351 1800 for product and application opportunities.
